

# Bringing IXL home!

## FREE ONLINE MATH AND LANGUAGE ARTS PRACTICE

We're happy to announce that we will be using IXL to help reinforce our classroom curriculum this year. IXL is an online math and language arts program with over 4,000 interactive practice skills, and we've created a personal account for your child.

### What you'll find on IXL

**UNLIMITED, UNIQUE QUESTIONS**  
to make practice engaging!

**FUN AWARDS**  
to keep your child motivated!

**ADAPTABLE SKILL LEVELS**  
to support and encourage your child!

**DETAILED PARENT REPORTS**  
to stay in-the-know!

Have your child sign in today at [www.ixl.com](http://www.ixl.com)!

PASSWORD:

*If your child needs help signing in, please contact his or her teacher.*

## Getting started with IXL

IXL is a Web-based math and language arts practice program that we will be using to reinforce the curriculum this school year. The program will allow us to individualize the learning experience for your son or daughter so that he or she can work to master the material we will be covering. Your child can sign in to any computer or laptop with the username and password provided by his or her teacher or school administration. There are even iPad and Android apps to allow your child to practice anywhere! This account will track his or her progress on IXL over the course of the entire year.

## Making the most of IXL

IXL features MicroSkills for every grade level and content area and provides immediate feedback with question-specific explanations for every incorrect answer. Because all IXL levels can be accessed from anywhere, it can be used in a variety of ways. Teachers might use IXL in the classroom for in-class instruction, test preparation, or homework assignments. At home, students can also practice the specific material needed to fill gaps in learning, keep up with the class, and even advance in topic areas of interest.

## Monitoring progress

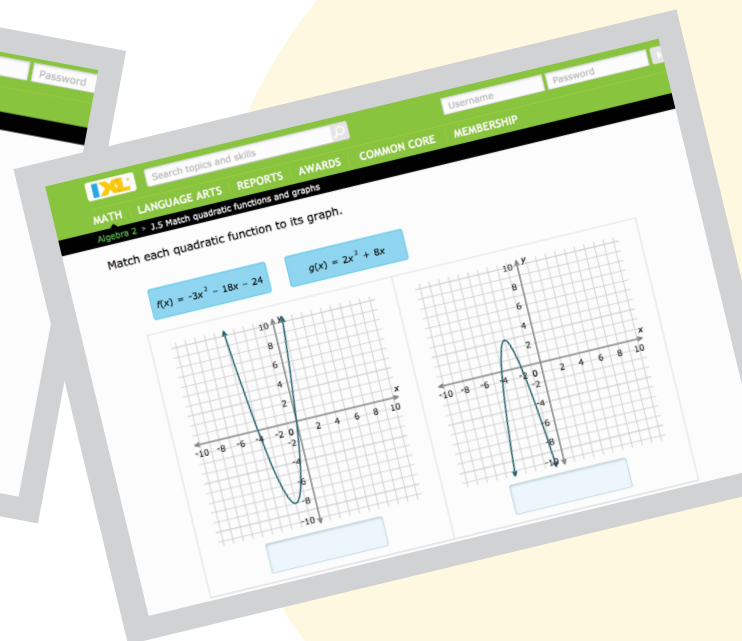

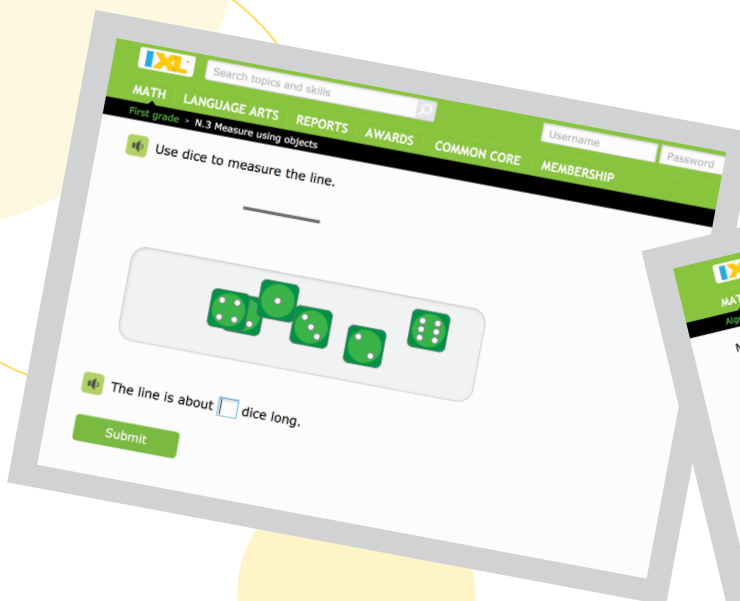

We want you to be as involved as possible in your child's education this year, and IXL will help keep you connected. When signed in to your son or daughter's account, a number of progress reports will be available to you, including the following that we recommend:

**Report Card:** view the skills your child has practiced broken down either by category area or by Common Core or state standard.

**Trouble Spots:** view just the MicroSkills that your son or daughter is struggling with so that you can provide targeted help at home.

## The IXL SmartScore

When tracking your child's progress, you will notice that many of the reports display his or her SmartScore for each MicroSkill. It is not a percentage or standard scoring system, but is based upon a unique algorithm that understands the learning process. The SmartScore takes into account not only the number of questions a student has answered correctly and incorrectly, but also the difficulty level of the problems, and the student's ability to answer correctly with consistency. It weighs more recent answers more heavily because the program recognizes that each child is intellectually different every time he or she sits down to practice. The benefit of this system is that the score will adapt no matter how many questions your child answers, ensuring that every student always has the possibility of reaching his or her SmartScore goal!

## Setup instructions

### Student instructions

- 1 Sign in to IXL at [www.ixl.com/signin/pantherrun](http://www.ixl.com/signin/pantherrun). Your teacher will provide you with your username and password. (You do not need to enter the "@pantherrun" portion of your username when signing in from this special page.)
- 2 Click on the Math or Language arts tab, and choose your grade level.
- 3 Click on a skill to start practicing!

### More information

For more information on how to get started with IXL, view our helpful user guides at [www.ixl.com/userguides](http://www.ixl.com/userguides).

If you have any questions, please don't hesitate to contact your account manager at [accounts@ixl.com](mailto:accounts@ixl.com).

## Welcome to IXL!

IXL is a comprehensive, standards-aligned math and language arts program offering unlimited practice in thousands of skills. One of the best things about IXL is that you may use it from school and from home!

Before you start, be sure to sign in to your IXL account! Enter your username and password on this page and click "Sign in." If you do not know your username or password, please ask your teacher. And remember to bookmark this page so that you can return here easily.

After signing in, click on your grade to select skills to practice. You may place your mouse over any skill to see a sample question. Or, click the Awards tab to begin conquering challenges and uncovering prizes!

IXL - Practice and excel!
