Dear Parents,

It is Math Superstar time! We invite your child to participate in the Math Superstar program. This is a voluntary math enrichment program that helps your child take steps into becoming an independent learner and a problem solver.

Every child from grades K to 5th will have the opportunity to participate. Your child will have one week to complete and return their worksheet to his or her teacher. **All Math Superstar worksheets will be available on-line each week on the school website at www.pantherrun.com/kidszone.html**

The program will **begin on October 3, 2016** and run for 8 weeks, ending on **December 5, 2016**. See schedule that follows below.

Students will earn a STAR for each paper completed and turned in. Credit is given for just attempting the problem. Class participation will be posted on a Math Superstar chart in the Cafeteria. At the end of the program, if your child has received at least 5 stars he/she will receive a certificate. If your child has received 8 stars, he/she will receive an additional prize.

Your role in Math Superstars is to encourage your child. It is ok to help your child so that they understand what needs to be done, but please do not give your child the answers. Please allow your child time the week to think about the problems and work on them. It is normal for a child NOT to be able to complete every problem on a worksheet. The process of reading, understanding and approaching the problems is a valuable step in the solving of many types of problems.

Thank you for allowing your child to embark on this mathematical adventure and hopefully have some fun along the way!

Sincerely,
Panther Run PTA
